

EQUIFAX WOTC INTEGRATION

The Equifax Work Opportunity Tax Credit (WOTC) integration is available as a part of the Talent Module Application Workflows. The WOTC program reduces the federal income tax liability of companies that employ individuals who are considered to have barriers to employment.

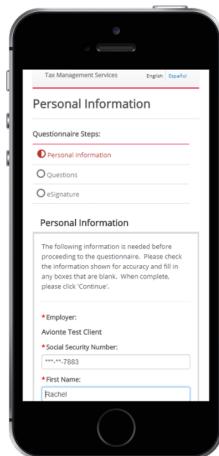

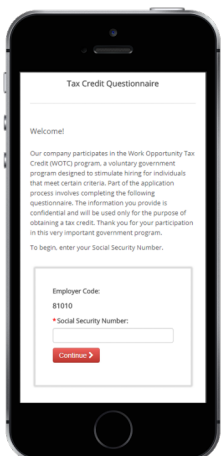

EASY SETUP, SEAMLESS INTEGRATION

Equifax WOTC seamlessly integrates electronic WOTC screening within your Avionté Application Workflows. You can easily turn this integration on to collect talent's information when they apply to your jobs via any of your Application Workflows, helping to increase your percentage of screened applicants and maximize your value.

CAPITALIZE ON YOUR TAX CREDITS

By using the Equifax WOTC integration as a part of your Application Workflows, you are able to capitalize on tax credits and incentives with simplified employment tax collection and compliance. This collection and analysis ensures you don't miss out on any tax credit or incentive opportunities.

EASY APPLY PROCESS ACCESSIBLE ON ANY DEVICE

Talent can access the Equifax WOTC screening process as a part of your Avionté apply process via any device - making it quick and easy for them to apply and for you to collect the screening results. This ensures you can maximize your screened applicants without creating a long or complex application that could cause dropoff.
