# SELF-SERVE, E-SIGNATURE DOCUMENTS POWERED BY ADOBE SIGN

The paperless onboarding process has never been easier: with E-Signature Documents powered by Adobe Sign you can easily prepare, send, track and manage your onboarding and employee documents for an efficient, streamlined process through the Recruiter and Talent Modules.

STREAMLINE YOUR CANDIDATE MANAGEMENT PROCESS

Streamline your entire candidate management process by sending out paperless e-signature documents through the Recruiter Module. Simply select the set of or single E-Signature Documents you need and hit send. Talent will be able to access and sign your document - anytime, anywhere via any device - ensuring the most efficient onboarding.

PAPERLESS ONBOARDING WITH CLOUD-BASED, DIGITAL SIGNATURES

Not only is your candidate management process streamlined, your onboarding process is completely paperless with Adobe Sign. Each document will be stored in your library and completely integrated within the Recruiter Module. With onboarding configuration and alerts, you'll know exactly the status of each document and be able to easily remind or resend as needed.

SELF-SERVE GIVES YOU CONTROL OVER DOCUMENT MANAGEMENT

Need a new document? No problem! Simply go to your Adobe Sign document library and with advanced field mapping, you have control of the documents you need when you need them. Not to mention, you have the ability to load documents in any language to your library.
