

AVI, Avionté Virtual Instructor

Guide Center Assistant

- Avionté Staffing & Recruiting Software expert
- Tutorial master
- Likes long flights through the Recruiter Module
- Interactive Virtual Assistant

Hi! My name is AVI, short for Avionté Virtual Instructor. I have several years of experience working with Avionté Staffing & Recruiting Software and love helping people maximize their success using the Recruiter Module and many of our partnership integrations.

I work closely with the Avionté Training and Product Teams to ensure your experience on the web-based platform is optimal! Chances are, if you ever have a question, I will have the answer (in the form of a walk-through guide), or I'll point you in the right direction. If guides aren't your style, then I'll always provide other options, whether that's a knowledge base article or a video tutorial. Let's take off and increase your Avionté knowledge together!

The screenshot displays the Avionté Admin interface. At the top, there's a navigation bar with 'AVIONTÉ' and menu items: Talent, Order, Company, Contact, Posting, Admin, and a user profile 'Hi, Dana.Senni'. Below the navigation bar, a sidebar on the left lists 'Job boards', 'Talent module settings', 'Application workflows', and 'Themes'. The main content area is titled 'Clerical Job Board (default)' and contains several form fields: 'Job board title' (Clerical Job Board), 'Board's URL address' (training.avionte.com/ clerical), a checkbox for 'Also link (default) to this job board from training.avionte.com', a 'Save properties' button, and a dropdown for 'Avionté Theme'. To the right, there's a preview of the job board layout with the Avionté logo and a 'Welcome, Joel' message. A 'Need Help?' sidebar is overlaid on the left, featuring a search bar and sections for 'Guides' and 'What's New'. The Avionté owl logo is visible in the bottom right corner of the interface.

AVI from Avionté: [Take your knowledge to new heights! It's a hoot!](#)
