

IBM® KENEXA® ASSESS ON CLOUD

IBM® Kenexa® Assess on Cloud provides industry-leading assessment technology, helping you find the right talent for the right job - faster and more efficiently. With Assess on Cloud, you're empowered to make more informative workplace decisions - improving your placements and quality of hire.

SEAMLESS ONBOARDING EXPERIENCE - FOR BOTH RECRUITERS AND TALENT

With a seamless integration as a part of Avionté's mobile onboarding solution, recruiters can quickly and easily request assessment Talent Tasks, track the status of completion, and review results. With an all-in-one Talent Homepage, talent can easily complete assessments as a part of their Talent Tasks and keep track of recruiter requests.

The screenshot shows a mobile application interface for 'Request tasks'. It features a list of task categories: 'Profile tasks', 'E-Signature documents', and 'Talent Assessments'. Under 'Talent Assessments', there is a dropdown menu for 'Select an employer' with 'ABC' selected. Below this, it says 'Found 10 of 108' and provides a search box for 'Enter name of assessment' with 'IBM Kenexa Job Fit - Call Center' entered. There is also a field for 'Days until assessment(s) expire' set to '30'. At the bottom, there are two buttons: 'Send request' and 'Cancel'.

ACCESSIBLE ASSESSMENT TECHNOLOGY

With a responsive design, talent can access the assessments they need to take via any device, including mobile. By having a solution that allows your talent to more efficiently complete assessments so you can improve your onboarding process and your time to fill.

FLEXIBLE, SCALABLE ASSESSMENT PLATFORM TO SUIT YOUR NEEDS

Assess on Cloud is a scalable assessment solution, providing top-notch assessment technology with a wide array of assessment types. This assessment solution not only fits seamlessly into your onboarding process, it also provides self-serve functionality such as branding, usage tracking, and much more.
